PRESS RELEASE

FOR IMMEDIATE RELEASE

LINQX Announces Acquisition of Pegasus Vertex Inc (PVI)

Houston, Texas (June 20, 2024) – LINQX, formerly known as StrataGen Inc, oil and gas industry leader in stimulation simulators and field operations software used by global oilfield leaders, has announced today that the company acquired Pegasus Vertex the industry leader in drilling and cementing software.

This exciting partnership opens endless possibilities and opportunities for the combined company, to assist our customers throughout the full lifecycle of their operations.

“With this acquisition, we are merging best in class digital technologies.” said Utpal Ganguly CEO. “The goal is to better support our clients’ needs from well construction through production. The team and I are extremely excited to begin this journey with our new colleagues.”

About LINQX

StrataGen Inc., dba LINQX, is known for fracturing optimization to increase production and reservoir recovery rates. The company has strived to bring integration across industry leaders’ workflows with digital solutions for decades, enabling their clients to operate more efficiently and drive down their operating costs.

About PVI

PVI has decades of engineering and software programming expertise and has designed an extensive range of drilling and cementing software to tackle the modern challenges encountered by operators and service companies in the oil and gas sector.
